Allegany County Population Health and Well-being

Population health and well-being is something we create as a society, not something an individual can attain in a clinic or be responsible for alone. Health is more than being free from disease and pain; health is the ability to thrive. Well-being covers both quality of life and the ability of people and communities to contribute to the world. Population health involves optimal physical, mental, spiritual and social well-being.

Allegany County is faring worse than the average county in Maryland for Population Health and Well-being, and slightly worse than the average county in the nation.
